APTITUDE TEST OF VARIOUS COMPANIES

Sr.	Company	Quants	Logical	Verbal	Coding	Technical
1.	**Barclays** Note: No negative marking. Sectional Cutoff	Time and Work, Ages, Simple and Compound interest, allegation and mixtures, calendar, time and distance, probability, boats and streams, boats and streams. General questions on numbers and areas.	Number series, find the wrong number from series, data interpretation, and figure related questions.	Paragraph reading, grammar related questions, etc	2 codes of 5 marks each. 1. find the unit digit of a given number in the form a^b. 2. find the calendar date whether it falls in a particular range or not.	none
2.	**Microsoft** Note: No negative marking. Sectional Cutoff	Same	Same	Same and one extra essay writing section	2 codes very basic ones	Not language specific had c/c++ code snippets and to guess the output, OS, NW, DB all conceptual questions.
3.	**Wissen Technology** Note: No negative marking. Based on total score of mcqs and code	12-15 questions with all the topics mixed easy maths and logical questions. Focused mainly on family tree type questions			2 coding questions. Mainly focused on DP like questions. Almost based on Competitive coding type questions.	none
4.	**Microfocus** Note:	50 questions all mixed heavy quants questions on topics like time and distance, trains, streams and boats, numbers, pipes			1 coding question. Moderate	none

	No negative marking. Based on total score of mcqs and code	and cisterns etc. Logical questions are also tough. Lengthy questions and takes time to solve. Note: the time provides is very less and inclusive of the coding section.		type of question	
5.	**Seclore** Note: Negative marking is included.	20 questions Pen and paper test based on basic quants and logical questions.		None	None
6.	**Think Analytics** Note: No negative marking.	Questions on areas, surface area, volume etc. Some general quants questions	No logical questions	Para based questions	None	C/C++ based questions and general coding concepts
7.	**Dolat Capital** Note: negative marking included.	5 questions all mixed 1 compound interest question 1 logical question 1 base 6 notation question 1 data interpretation question 1 miscellaneous (round 2)		2.5 hrs coding test. Code in C/C++ (round 3)	Purely C/C++ concepts and snippets (round 1)
8.	**Oracle** Note: No negative marking ,2.5hr longtest	General Aptitude: Maths Verbal Logical (Some unknown topics and are tough)	-	-	None	Computer fundamentals Software engineering concepts(OOAD) Database Data structure (mainly trees and graphs)
9.	**Cimpress** Note: Solve both the codes even if not	None	None	None	2 Coding questions on Hackker earth.	none

	completed submit it.					
10	**Publicis Sapient** Note: no negative marking	General quants based on all the above mentioned topics	Same	Same	1 code	30 questions on cloud, JS, Jenkins etc 1 general technical questions section.(code snippets and other concepts)
11	**Pharmeasy** Note: no negative marking	Pen and paper test. 2 codes to write. 3 general logical questions(not the indiabix ones)				
12	**Colgate** Note: No negative marking	Same	Same	Same	None	None
13	**Interactive Brokers** Note: No negative marking Purely based on java	3 math's questions. Based on ages, profit and loss, pipes and cisterns/allegations and mixtures	None	None	None	Pure java based questions. Snippets and concepts
14	**ZS Associates** Note: No negative marking Has 2 rounds of apti. One general aptitude and one video round for personality test	Same More of Data interpretation questions	Same	Same	None	Some basic technical questions on time and space complexity

15	**Accolite** Note: No negative marking. Every set has 5 questions, evaluation on the spot.	MCQ questions on EduThrill app. Every quiz has 5 questions and the more sets you solve the more chances of clearing the test. Questions based on Java, datastructure, Db, network and complexity concepts.
16	**LnT infotech**	8 sections for aptitude 1. Quants – very easy and basic questions on profit and loss, ages, ratio proportion,numbers etc. (10 ques) 2. Logical – basic indiabix questions (10 ques) 3. Verbal – same (10 ques) 4. Technical - Technical (Programming, DBMS, Networking, RDBMS, OOPS, SDLC, web etc) 5. Coding – very simple(find largest of 3 numbers) 6. Query Writing – very easy one 7. Paragraph writing 8. Personality test – very boring (80 questions about yourself) Note: first 4 rounds are evaluated for the aptitude, sectional cut off and the last 4 are evaluated during the interview
17	**Reliance Industries**	Normal Aptitude questions. Quants, logical, verbal reasoning. No coding question
18	**Willis towers Watson**	18 minutes test focused on data interpretation, logical, verbal questions. (they do have a sample test which has their test pattern and simple, but the actual test is much tricky. Given from home)
19	**Continuum**	Aptitude questions are not mcqs, we have to type the answers. Has 2 coding questions simple to moderate level.
20	**Wolters Kluwer**	No aptitude. Shortlisting done on the basis of resume. 1 round of interview resume based. Did not understand their selection criteria though:/
21	**Loyalty Rewardz**	Same simple aptitude questions.
22	**BrowserSta ck**	3 coding questions on hackerearth (moderate to high level) 50, 50, 100 marks test (total 200) Interview: 1 coding round, if cleared as per their expectations then you qualify for the interview, they may offer a different role. There may be 2-4 interview rounds depending on the role(focused on data structure, AOA, coding concepts etc.)

These we my aptitude/interview experience. It was definitely an overwhelming experience. ;-)

PRO TIP: This is just a phase, it will pass by. Don't judge yourself even if you don't clear any aptitude or any interview round. Believe in yourself! And have a lot of patience!

ALL THE VERY BEST! YOU WILL DEFINETLY GET THE BEST! ☺
